1. **Secretariat:** The provision is for the expenditure on salary and establishment expenditure of Department and Agricultural Scientists Recruitment Board(ASRB). ASRB is an attached office of DARE. It also includes funding of programmes of International cooperation.

3. **Strengthening of Krishi Vigyan Kendras (KVKs):** The provision is for the activities to reach out to the farmers at grass root level through Krishi Vigyan Kendras to demonstrate, disseminate and refine front-line agricultural technologies. It includes demonstration of technologies, training of farmers and extension personnel on local technologies, distribution of seeds, planting materials, testing of soil and water samples etc.

4. **Agricultural Production and Post-Production Mechanization Augmented with Innovative Technologies for Sustainable Agriculture Development:** The provision is for research, development and refinement of farm equipment, process and value addition protocols.

5. **Natural Resource Management:** The provision is for conducting research to address low farm productivity and profitability, land degradation, low water productivity, soil health deterioration and low nutrient use efficiency, deterioration in ecosystem services, abiotic stresses, etc. It is necessary to encounter deteriorating natural resource base for long-term sustainability of agricultural development.

6. **Crop Science for Food and Nutritional Security:** Provision is to develop trait-specific high yielding field crop varieties/hybrids having tolerance to pest and diseases and bio-fortification, besides various abiotic stresses. The quality attributes are also given due importance with no yield penalty. The All India Coordinated Research Project (AICRPs)/Network Research Projects with active collaboration with State Agricultural Universities (SAUs) are engaged in the development of improved crop varieties/ hybrids, cost-effective production and environment-friendly protection technologies in different agro-climatic regions.

7. **Technology based support in improvement and management of horticulture crops towards enhanced and sustainable productivity for nutritional security (Horticultural Science):** The provision is to address thrust areas of enrichment of horticultural genetic resources, development of new cultivation with resistance mechanism to biotic and abiotic stresses, appropriate production technology and health management system of horticultural and vegetable crops.

8. **Research, Education and Technology Development for Sustainable Livestock Health and Production towards Nutritional Security:** The provision is to develop new technologies to support production enhancement, profitability, competitiveness and sustainability of livestock and poultry sector for food and nutritional security. It facilitates need based priority research in livestock and poultry sector in on-going and new emerging areas to support productivity increase, thereby reducing the gap between potential and actual yield.

9. **Fisheries and Aquaculture for Sustainable Development:** The provision is to implement research and academic programmes in fisheries and aquaculture. It also provides technical, training, analytical, advisory support and consultancy services in the field of fisheries resources, assessment and management, standardization of aquaculture hatchery and grow-out culture technologies, responsible fishing system and species diversification and utilization of inland saline soils for aquaculture, fish health monitoring etc.

10. **Strengthening Agricultural Education, Management & Social Sciences:** The provision will provide financial support to all the agricultural universities in the country comprising State Agricultural Universities (SAUs), Deemed Universities (DUs), and Central Universities (CUs) with Agriculture Faculty. The scheme is also responsible for maintenance and improvement of standard of agricultural education through:(i) accreditation of educational institutions, (ii) providing International/national fellowships both at post and undergraduate levels, (iii) Organization of training and capacity building programmes for the scientists/faculty of National Agricultural Research System in cutting-edge areas.

11. **ICAR Headquarters:** Provision is primarily for the salaries, pensions, expenses on administrative and logistic support to different schemes under ICAR in order to implement them efficiently.

12. **Central Agricultural Universities:** The provision is to strengthen the regional education, research and extension capabilities based on local agro-climatic situation.

1. **Secretariat:** The provision is for the Salary and Establishment Expenditure of Department of Fertilizers.

2.01. **Payment for Indigenous Urea:** The provision is for subsidy under Fertilizer New Pricing Scheme (NPS) including Freight Subsidy for production of urea (i.e. Indigenous Urea). The subsidy scheme is intended to make fertilizers available to the farmers at reasonable prices and to give producers of fertilizers a reasonable return on their investment. The difference between the concession price so fixed less distribution margin and the statutorily controlled consumers' price is allowed as subsidy. The quantum of subsidy depends on the concession price, the consumer's price and the level of production.

2.04. **Payment for Import of Urea:** As indigenous production is not adequate to meet the demand for fertilizers, imports are arranged to make up for the shortfall. The cost involved is broadly the price of imported fertilizers plus the cost of handling and distribution of the fertilizers. The selling price of imported fertilizers to farmers is controlled under the Fertilizer Control Order and the consumer prices are thus statutorily regulated. This selling price is the same as the selling price for indigenous production. The difference between the amount realised by way of sale of fertilizers to farmers and the import costs to Government represents the subsidy on fertilizer imports.

2.05. **Direct Benefit Transfer(DBT) in Fertiliser Subsidy:** Provision for Direct Benefit Transfer(DBT)of subsidy on online bills.

2.06. **Fertilizer Subsidy Management System:** The provision is for Establishment related Expenditure (viz. Office Expenses, Professional Services, ICT, and etc.) under Fertilizer Subsidy Management System (erstwhile, DBT in Fertilizer Subsidy).

3.01. **Payment for Indigenous P and K Fertilizers:** Provision is for payment to the manufacturers of fertilizers/agencies under the Nutrient Based Subsidy (NBS) scheme on the sale of decontrolled Phosphatic and Potassic fertilizers at concessional rate to the farmers. The concession would lead to balanced use of fertilizer NPK nutrients for better soil health and productivity.

3.04. **Payment for Imported P and K Fertilizers:** Provision is for payment to the importers of fertilizers/agencies under the Nutrient Based Subsidy (NBS) scheme on the sale of decontrolled Phosphatic and Potassic fertilizers at concessional rate to the farmers. The concession would lead to balanced use of fertilizer NPK nutrients for better soil health and productivity.

4. **Scheme for promotion of flagging of merchant ships in India:** In order to achieve the objective of Atmanirbhar Bharat, the Union Cabinet, in its meeting held on 14 th July, 2021 approved a scheme in the Ministry of Port Shipping and Waterways to provide ₹1624 crore over a period of five years as subsidy to Indian Shipping companies in global tenders floated by Ministries and CPSEs for import of government cargo.

5. **Policy on Promotion of Organic Fertilizers:** The provision is for promotion of organic fertilizers by providing Market Development Assistance (MDA) and grant for promotion of Research and Development.

7.01. **Pharmaceutical Promotion & Development Scheme(PPDS):** The provision is for promotion, development and export promotion in Pharmaceuticals sector by extending financial support for conduct of seminars,

conferences, exhibitions, mounting delegation to and from India for promotion of exports as well as investments, conduction studies/ consultancies for facilitating growth, export as well as critical issues affecting Pharma Sector.

7.02. **Assistance to Pharmaceutical Industry for Common Facilities(API-CF)/Cluster Development:** The Scheme would be implemented in a Public Private Partnership (PPP) mode through one time grant-in-aid to be released in various phases for creation of identified infrastructure and common facilities to a Special Purpose Vehicles (SPVs) set up for the purpose.

7.03. **Pharmaceuticals Technology Upgradation Assistance Scheme(PTUAS):** The sub-scheme is aimed at providing interest subvention to the eligible Small and Medium Scale Pharma Units having GMP compliant manufacturing facilities both for Bulk Drugs and Pharmaceuticals formulations. The eligible units intending to upgrade their manufacturing infrastructure to attain WHO-GMP norms, have to secure loan from any Financial Institution for upgrading their infrastructure and technology.

7.04. **Promotion of Bulk Drug Parks:** To promote setting up of bulk drug parks in the country for providing easy access to world class Common Infrastructure Facilities (CIF) to bulk drug units located in the park in order to significantly bring down the manufacturing cost of bulk drugs and thereby make India self-reliant in bulk drugs by increasing the competitiveness of the domestic bulk drug industry.

8.01. **Production Linked Incentive(PLI) Scheme for Promotion of Domestic Manufacturing of Critical Key Starting Materials(KSMs)/Drug Intermediates(DIs) and Active Pharmaceutical Ingredients(APIs) in India:** The objective of the scheme is to attain self-reliance and reduce import dependence in critical KSMs/DIs/APIs. Under the scheme, financial incentives shall be given based on committed investment and sales made by selected applicant for the eligible products.

8.02. **Production Linked Incentive (PLI) Scheme for Domestic Manufacturing of Medical Devices:** The scheme proposes a financial incentive to boost domestic manufacturing and attract large investment in the Medical Device Sector.

8.03. **Production Linked Incentive Scheme for Pharmaceuticals:** The objective of the scheme is to enhance India manufacturing capabilities by increasing investment and production in the sector and contributing to product diversification to high value goods in the pharmaceutical sector.

9. **Promotion of Research and Innovation in Pharma Med-Tech (PRIP):** The objective of the scheme is to encourage industry to invest in R & D in Priority areas and to inculcate the culture of quality research and nurture the pool of scientists in the country by promoting industry-academia linkage, which will lead to sustained global competitive advantage and contribute to quality employment generation in the country

10. **Strengthening of Medical Device Industry:** Medical device is a sunrise industry in India, with double digit growth rate. Due to efforts of the government in the last decade in creating a suitable eco-system and incentivizing production of medical devices through PLI scheme, production of technology intensive medical devices such CT scan, MRI, C-arm etc. has started in India.

10.01. **Promotion of Medical Device Parks:** Creation of world class infrastructure facilities in order to make Indian medical device industry a global leader. Easy access to standard testing and infrastructure facilities through creation of world class Common Infrastructure Facilities for increased competitiveness will result in significant reduction of the cost of production of medical devices leading to better availability and affordability of medical devices in the domestic market.

10.02. **Capacity Building and Skill Development for Medical Devices:** The main objective of this component is to fill up the gap existing in the education and research in medical devices sector and to ensure quality teaching, training and nurturing excellence in Medical Technology education for generating critical mass of trained human resource to meet the requirements of rapidly innovating multidisciplinary areas of Medical Technology and create R&D ecosystem for the sector.

10.03. **Common Facilities for Medical Devices Clusters:** To strengthen existing infrastructure by providing financial assistance to medical device clusters for creating Common Infrastructure Facilities, boosting domestic manufacturing capacity and improving cluster quality. Further, to support any national or state level Government or Private institutions to establish or strengthen testing facilities for medical devices to support the arising needs of the Testing Laboratories for Medical Devices due to roll-out of licensing regime of the Medical Devices w.e.f 1.10.2022, ensuring availability of more testing facilities for evaluation of medical devices on behalf of the manufacturers, as mandated under the Medical Devices Rules, 2017.

10.04. **Marginal Investment Scheme for Reducing Import Dependence:** Medical Device Industry needs specialized inputs components in manufacturing of Medical Devices. These cannot be produced by the general industry and are often imported by medical device manufacturers. They can be incentivized through grant for manufacturing of essential/key components or upstream materials or accessories or closely related products used in manufacturing of medical devices. Presently in respect of 354 medical devices, exemption from the instructions of Department of Expenditure for Global Tender Enquiry (GTE) for tenders of value below ₹ 200 crore is available owing to lack of domestic manufacturing of these devices to meet the requirement of procurement of central government hospitals. Marginal Investment Support for manufacturing of these medical devices within the country would lead to reduction in import of these items.

10.05. **Medical Device Clinical Studies Support Scheme:** Support will be provided for conducting Clinical Investigations or Pre-Clinical animal studies for medical device or Clinical Performance Evaluation of new IVDs. This will promote manufacturing of quality products with better efficacy and safety. It will also enhance credibility of domestic manufacturers to produce high quality products, opening up opportunities for them in markets outside the country.

10.06. **Medical Device Promotion Scheme:** The scheme aims to promote Medical Device Industry by bringing industry leaders, academia and policy makers together to share their knowledge and experience for overall development of the sectors. Financial support will be provided to industry bodies/associations and educational institutions to conduct meetings/ seminars/ workshops/ events/ road-shows/expos etc. for which grant will be provided by the department. Also, support for manufacturer evaluation studies, creation of database, international study missions etc. will be provided for promotion and development of the medical device industry. Department may also directly incur expenditure on industry development activities

11. **Scheme of Programme Management:** The Scheme of Programme Management is designed as an enabling and cross-cutting scheme to strengthen the implementation, monitoring and evaluation of the schemes of the Department of Pharmaceuticals, as also facilitate sectoral expertise through hiring of consultants. The Scheme will subsume the component of engagement of individual consultants and PMAs currently funded through Scheme.

2. **Meteorology:** India Meteorological Department (IMD) is the Principal Government agency in all matters relating to Meteorology and allied subjects. The primary objectives are to undertake (i) meteorological observations and to provide current and forecast meteorological information for optimum operation of weather sensitive activities like agriculture irrigation, aviation pilgrimage etc., (ii) warn against severe weather phenomena like tropical cyclones, dust storms, heavy rains, snow cold and heat waves etc., which cause destruction of life and property; and (iii) maintain liaison with other scientific organizations in the country in the fields of agriculture hydrology, oceanography, air pollution monitoring and forecasting to provide customized meteorological services for specific purposes.

3. **National Centre for Medium Range Weather Forecasting (NCMRWF):** The National Centre for Medium Range Weather Forecasting is continuously developing advanced numerical weather prediction systems, with increased reliability and accuracy over India and neighboring regions through research, development and demonstrates new and novel applications, maintaining highest level of knowledge, skills and technical bases. NCMRWFs real-time data assimilation system produces initial conditions for running real-time seamless weather prediction models that caters to forecasts from days-to-seasons, and provides valuable guidance to IMDs forecasters. The high resolution global and regional ensemble prediction models being run at NCMRWF are used operationally for providing probabilistic forecasts for severe weather warning.

4. **Deep Ocean Mission (DOM):** The Deep Ocean Mission aims to explore deep-oceanic resources and develop technologies for their sustainable use. The Mission consists of six major themes, namely (i) Development of Technologies for Deep Sea Mining, Manned Submersible, and Underwater Robotics; (ii) Development of Ocean Climate Change Advisory Services; (iii) Technological innovations for exploration and conservation of deep-sea biodiversity; (iv) Deep Ocean Survey and Exploration; (v) Energy and freshwater from the Ocean and (vi) Advanced Marine Station for Ocean Biology. The mission involves mapping of floors of Deep Oceans and development of technologies like a manned submersible with 6000m water depth rating, mining system for deep sea mining, sustainable utilization of deep-sea bioresources and developing engineering designs for offshore thermal energy-driven desalination plants. Human capacity will be developed in ocean biology and engineering through the translation of research into industrial applications.

5. **Mission Mausam:** This is an ambitious initiative/scheme by the Ministry of Earth Sciences (MoES) designed to enhance India's weather and climate forecasting capabilities across various critical sectors, including agriculture, aviation, urban planning, defense, sports, and disaster preparedness. The mission seeks to leverage cutting-edge technologies, high-performance computing, and advanced modeling techniques to revolutionize weather monitoring, prediction, and data analysis. By advancing weather surveillance, incorporating next-generation radars and satellites, and utilizing artificial intelligence and machine learning, Mission Mausam aims to provide more accurate and timely forecasts, addressing the challenges of extreme weather events and climate change. The program also focuses on building robust infrastructure, fostering innovation, and ensuring that weather-related information reaches the public effectively, contributing to national development, disaster management, and climate resilience. Through its comprehensive approach, Mission Mausam aims to establish an integrated framework for advanced weather and climate prediction in India.

6. **High Performance Computing System:** The High-Performance Computing (HPC) systems deployed during 2024-25 across various institutes of the Ministry of Earth Sciences (MoES) namely IITM and NCMRWF have been crucial in enhancing the accuracy of weather forecasts and advancing research and development over the past decade. These HPC systems have facilitated seamless data assimilation and the generation of precise forecasts with extended lead times from both global and regional Numerical Weather Prediction (NWP) models, leading to significant improvements in weather, climate, and ocean state predictions.

7. **Prithvi Vigyan (PRITHVI):** The scheme deals with the study of various aspects of Earth System Science by integrating studies related to ocean, polar, seismological, geoscience in a comprehensive manner along with the outreach program. In the ocean sector, it sustains observational networks in and around India, validates satellite data, and improves forecasting of ocean dynamics, climate variability, and sea level changes. It provides ocean information services, biodiversity assessments, coastal health monitoring, and operates a 24/7 tsunami warning system. It also undertakes EEZ surveys, explores deep sea minerals such as gas hydrates and polymetallic nodules, maintains research vessels, and develops ocean technologies including energy, coastal engineering, and unmanned submersibles. The polar program safeguards India strategic and scientific interests in Antarctica, the Arctic, Himalayas, and Southern Ocean, conducting annual expeditions, maintaining research bases, and building advanced logistics facilities. The seismology and geoscience program strengthens earthquake monitoring, hazard assessment, and research in solid earth processes, geo-dynamics, and marine geo-science, including deep borehole studies and geoid low investigations. And, the research, education, training, and outreach program supports extramural projects to academic and research institutions, builds national facilities, promotes international cooperation, provides trainings, develops skilled manpower, and enhances awareness through exhibitions, workshops, and knowledge resource centres.

8. **Indian National Centre for Ocean Information Services (INCOIS):** INCOIS, Hyderabad: It provides ocean information and advisory services to the society, industry, government and scientific community through sustained ocean observations and constant improvements through systematic and focused research.

9. **National Institute of Ocean Technology (NIOT):** NIOT, Chennai: The major aim of NIOT under the Ministry of Earth Sciences is to develop reliable indigenous technology to solve the various engineering problems associated with harvesting of living and non-living resources in the Indian Exclusive Economic Zone (EEZ), which is about 2/3 of the land area of India.

10. **National Centre for Polar and Ocean Research, Goa (NCPOR):** NCPOR, Goa is the premier R&D institution responsible for the countrys research activities in the polar and Southern Ocean realms. The main objectives of the Institute are Polar and Ocean Sciences, Geoscientific surveys, extended continental shelf and Deep Sea Drilling in the Arabian Sea, etc.

11. **Indian Institute of Tropical Meteorology (IITM):** IITM, Pune undertakes basic research on the Ocean-Atmosphere Climate System required for improvement of Weather and Climate Forecasts and development of earth system model for long term prediction and projecting climate change scenarios. These are achieved through advancement of research in Ocean-Atmosphere by undertaking relevant scientific programmes (involving observations and modelling) and collaborating at National and International level along with continuous investments in human resource development for conducting cutting edge research.
